

Acetate Cloth Rubber Adhesive Tape

Dexlu Item No.: D020402

Properties

This kind of tape is made of imported acetate cloth with heat-resistant rubber adhesive, which shows excellent dielectric insulation properties, high heat resistant, excellent solvent resistant, and is widely used for electrical industrial transformer, motor, deflexion loop or anti-flaming insulating protection and fixed loop etc.

Data Form

Properties	Value
Tape Color	White Black
Overall Thickness	0.23mm
Backing Thickness	0.15mm
Standard Length	33m
Insulation Class	B (> 130°C)
Peel Strength	≥4.2 N/10mm
Tensile Strength	≥70 N/10mm
Elongation	≥18 %
Breakdown Voltage	≥3.5 KV
Resistivity	≥1.0x10 ⁸ ohm

Specification

Standard width: 5~1000mm, or slit into the width required

Packing: In Carton

Min Qty: 1000 m2 each size in a lot.

Shelf life: one year from the data of delivery. It can still be used if it is qualified by testing after one year according to above Technical Requirement.

Note: The values noted in above technical specification are given only for our customers' reference and should not be used in writing specifications.
